Neck Measurement

Place the measuring tape around your neck at the level the collar would be buttoned. Place two fingers between your neck and the tape. The tape should be snug but move easily.

Chest Measurement

Wrap the measuring tape around the broadest part of your chest; under your arms. Place two fingers between your body and the tape. The tape should be snug but move easily.

Shirt Sleeve Measurement

Keep your arms down at your side and look straight ahead when measuring your sleeve. Place the start of the measuring tape at the base of your neck, on the middle of your spine. Move the tape over the top of your shoulder and then down your arm one-inch below your wrist.

Waist Measurement

Place the measuring tape around your waist at the level you would normally wear your pants. (Note: Normal pants are generally worn around the navel). The tape should be snug but move easily.

Pant Length Measurement

Look straight ahead; begin measuring at the side of your waistband. From the top of the pants, extend the tape down your leg until you reach the sole of your shoe.

Coat Size Measurement

This measurement is taken with the tape measure well up under the arms, over the shoulder blades, and across the chest in front. Measurement should be taken without flexing. Coat sizes are 2" larger than chest size (example: 38 chest, 40coat).

How to measure for her garments

Height: With shoes on, stand with your feet slightly apart and your back to a wall. The measurement from the top of your head to the floor is your height.

Bust Size: Measure snugly (under arms) around fullest part of bust. Keep measuring tape parallel to ground.

Waist Size: Measure snugly around the narrowest part of waist, usually the belly button area.

Hip Size: Measure snugly around the fullest part of hips.

If in any doubt always go up a size. A slightly bigger uniform can be worn, however one that is too small cannot. It is common that you will wear a different size with Formal Fashions than you do with other brands.
